Portfolio: <https://lookinginsidemysoul.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Senior Business Analyst with 8+ years of experience across Business Intelligence, data visualization, and applied AI/ML, specializing in Power BI, Tableau, SQL Server, and Python. Proven track record designing scalable data models and interactive dashboards that drive C-suite decision-making, and pioneering AI-augmented analytics tools that reduce manual reporting effort. Recently built a multi-agent SQL assistant that lets business users query data in plain language, saving 3.2 FTEs previously spent on manual SQL reporting. Skilled in leading cross-functional Agile teams, stakeholder engagement, and translating complex datasets into measurable business impact.

KEY SKILLS

- **BI & Visualization:** Power BI, Tableau, Qlik Sense, DAX
- **Data & AI:** SQL Server, Python, R, Predictive Analytics, Machine Learning, Multi-Agent AI Systems, Prompt Engineering
- **Delivery:** ETL & Data Modeling, Agile/Scrum, Jira, MS Project, Stakeholder & C-Suite Reporting
- **Leadership:** Cross-functional Team Leadership, Mentoring, Process Optimization, Project Documentation

PROFESSIONAL EXPERIENCE

Senior Analyst

Apr 2024 – Present

Infosys BPM Limited | Bangalore, India

- Built and deployed a multi-agent SQL assistant enabling business users to run autonomous SQL queries through simple chat input, eliminating manual query-writing and saving 3.2 FTEs in reporting effort.
- Spearheaded a team of five analysts in an Agile environment, defining project scope, allocating resources, and driving sprint planning to deliver data models and dashboards on time and within budget.
- Designed and implemented scalable data models and reporting solutions, leading requirement-gathering workshops, drafting project charters, and coordinating cross-functional reviews to ensure alignment with business objectives.
- Managed end-to-end BI solution rollouts using Jira and MS Project, overseeing backlog grooming, sprint execution, stakeholder demos, and risk mitigation, maintaining 95% on-time delivery.
- Administered Power BI and Tableau platforms; mentored a BI team of four in best practices, code reviews, and performance tuning, resulting in 20+ interactive dashboards that increased stakeholder engagement by 30%.
- Delivered strategic, data-driven recommendations to C-suite—such as optimizing promotional spend and streamlining operations—backed by RACI matrices and project status reports, driving a 15% uptick in quarterly revenue.
- Managed the BI side of the SFDC Invoicing Project, collaborating with finance, IT, and operations to deliver dashboards supporting enhanced billing and reconciliation processes.

Analyst

Apr 2022 – Mar 2024

Infosys BPM Limited | Bangalore, India

- Conducted data modeling and designed/documented technical solutions for business requirements.
- Collaborated with cross-functional teams to deliver high-impact BI reports and dashboards.
- Proposed technology-based solutions to improve functional efficiency and drive business excellence.
- Managed Data Virtualization Product Support, handled escalations, and optimized SQL queries for improved data-access performance.
- Played a key role in the AT&T Invoicing Project, handling BI reporting, automating reports, and improving invoice reconciliation accuracy.

Associate Analyst

Apr 2020 – Mar 2022

Infosys BPM Limited | Bangalore, India

- Developed dashboards, automated reports, and processes using Excel/VBA, Tableau, and Power BI.

- Performed advanced data analysis and developed predictive models for business optimization.
- Mentored junior analysts and collaborated with international teams (UK & US) on consulting projects.

Senior Process Executive

Feb 2018 – Mar 2020

Infosys BPM Limited | Hyderabad, India

- Performed attribute and duplicate reviews in the GIS domain, ensuring data quality and compliance.
- Analyzed large attribute datasets, documented findings, and recommended process improvements.
- Applied machine learning models to optimize bot review workflows in GIS.
- Supported internal BI tools and process enhancements to improve operational efficiency.

Digital Marketing Intern

Jul 2017 – Oct 2017

IT Info Digital Services | Hyderabad, India

- Analyzed client websites for monthly reporting using analytics and revenue KPIs; supported PPC campaign creation and analysis.
- Used Google Analytics to review social media platform performance and adjust strategies to optimize reach.

Web Consultant

Aug 2015 – May 2017

DK Technologies | Kolkata, India

- Designed, developed, and maintained multiple client websites, coordinating layout, links, and multimedia elements with the design team.

Computer Teacher (TGT)

Jul 2012 – Jun 2015

DAV Public School | Patna, India

- Instructed students in computer science and programming (Java, Python, C, MySQL) and web design.
- Implemented the School Management System (SMS) and British Council's School Online Program.

Senior Technical Assistant

Sep 2010 – Jul 2011

MCET HRD

- Managed computer lab infrastructure, performed routine maintenance, and resolved technical issues.
- Provided software and lab-usage training to students and faculty.

EDUCATION

Bachelor of Arts – History

Krishnath College, University of Kalyani, India — May 2007

CERTIFICATIONS

- Certified Professional Data Science Practitioner — Analytics Path, Hyderabad
