PROFESSIONAL EXPERIENCE

Senior Analyst Apr 2024 - Present

Infosys BPM Limited | Bangalore, India

- Built and deployed a multi-agent SQL assistant enabling business users to ask data questions in plain language; the workflow plans and executes SQL behind the scenes, releasing 3.2 FTEs of manual reporting capacity.
- Led a five-person analyst team through Agile planning, resource allocation, and scope definition for data models and dashboards.
- Managed end-to-end BI rollouts using Jira and MS Project, maintaining 95% on-time delivery through backlog management, demos, and risk mitigation.
- Administered Power BI and Tableau platforms; mentored four BI colleagues in dashboard standards, code reviews, and performance tuning, delivering 20+ dashboards that lifted stakeholder engagement 30%.
- Delivered C-suite recommendations on promotional spend and operations that contributed to a 15% quarterly revenue uplift.

Analyst Apr 2022 - Mar 2024

Infosys BPM Limited | Bangalore, India

- Designed data models and documented technical solutions for business requirements and high-impact BI reporting.
- Managed Data Virtualization support, handled escalations, and optimized SQL for improved data-access performance.
- Supported the AT&T; Invoicing Project with BI reporting, automation, and improved invoice reconciliation accuracy.

Associate Analyst Apr 2020 - Mar 2022

Infosys BPM Limited | Bangalore, India

- Developed dashboards and automated reporting with Excel/VBA, Tableau, and Power BI; built early predictive models for business optimization.
- Mentored junior analysts and collaborated with UK and US consulting teams.

Senior Process Executive Feb 2018 - Mar 2020

Infosys BPM Limited | Hyderabad, India

- Assured GIS attribute data quality and applied machine-learning models to optimize bot-review workflows.

Earlier experience 2010 - 2017

Digital Marketing Intern, IT Info Digital Services | Web Consultant, DK Technologies | Computer Teacher, DAV Public School | Senior Technical Assistant, MCET HRD

- Built and maintained client websites; used digital analytics for marketing reporting; taught programming and web design; supported IT infrastructure and user training.

EDUCATION, CERTIFICATION & LANGUAGES

Bachelor of Arts - History | Krishnath College, University of Kalyani, India | May 2007

Certified Professional Data Science Practitioner | Analytics Path, Hyderabad
